

Dark Theme Showcase

Welcome to the **Dark Theme PDF Converter**! This document demonstrates how the new dark themes render with **full dark backgrounds** in PDF format.

What Makes This Special

- **True Dark PDFs:** Complete dark backgrounds, not just dark text
- **Eye-friendly:** Perfect for night reading or presentations
- **Professional:** Maintains readability and elegance
- **Color Preserved:** Uses `print-color-adjust: exact` for proper rendering

Content Examples

Code Blocks

Here's some example code with syntax highlighting:

```
// Dark theme JavaScript example
function createDarkTheme() {
  const theme = {
    background: '#0d1117',
    text: '#f0f6fc',
    accent: '#58a6ff'
  };

  return theme;
}

console.log('🌙 Dark theme activated!');
```

Tables

Template	Background	Text Color	Special Features
GitHub Dark	#0d1117	#f0f6fc	Clean, modern
Modern Dark	#0f172a	#e2e8f0	Gradients, neon accents
Minimal Dark	#1a1a1a	#e8e8e8	Clean, focused
Academic Dark	#1a1a1a	#e8e8e8	Professional, serif
Newspaper Dark	#1a1a1a	#e8e8e8	Multi-column, vintage

Blockquotes

"The best dark themes don't just invert colors - they create a harmonious, professional appearance that's easy on the eyes while maintaining excellent readability."

Lists and Features

- ✔ Full page dark backgrounds
- ✔ Proper color preservation in PDF
- ✔ Optimized for print and screen
- ✔ Professional typography
- ✔ Consistent styling throughout

Nested Lists

1. Template Categories
 - Light themes (original 5)
 - Dark themes (new 5 variants)
 - Custom templates (unlimited)
2. Technical Features
 - CSS `print-color-adjust: exact`

- Puppeteer `printBackground: true`
- Browser color preservation
- Professional PDF generation

Usage Examples

Command Line Usage

```
# Use any dark theme
mdtopdf convert document.md -t github-dark
mdtopdf convert report.md -t modern-dark
mdtopdf convert notes.md -t minimal-dark

# Set as default
mdtopdf config set defaultTemplate github-dark
```

Template Comparison

Light vs Dark Themes:

- **GitHub** → **GitHub Dark**: Same layout, dark background
- **Modern** → **Modern Dark**: Neon accents on dark background
- **Minimal** → **Minimal Dark**: Clean typography, dark aesthetic
- **Academic** → **Academic Dark**: Professional papers, dark theme
- **Newspaper** → **Newspaper Dark**: Vintage columns, dark styling

Perfect For...

-  **Night Reading**: Easy on the eyes in low light
-  **Presentations**: Professional dark slides
-  **Developer Docs**: Code-friendly dark backgrounds
-  **Modern Reports**: Contemporary business documents
-  **Creative Work**: Stylish, modern aesthetics

Technical Implementation

This dark theme system uses advanced CSS and Puppeteer configuration:

- `background-color: #color !important` - Forces dark backgrounds
- `print-color-adjust: exact !important` - Preserves colors in PDF
- `min-height: 100vh` - Ensures full page coverage
- `printBackground: true` - Puppeteer setting for backgrounds

The result is **true dark theme PDFs** that maintain their dark appearance when printed or viewed, unlike typical dark themes that convert to white backgrounds in print.
