

Sample Document

This is a **sample markdown document** to test our PDF conversion with different templates.

Features Demonstration

Text Formatting

This paragraph contains *italic text*, **bold text**, and even ***bold italic text***. We can also use `inline code` to highlight technical terms.

Lists

Unordered List:

- First item
- Second item with **bold text**
- Third item with a [link](#)
- Fourth item

Ordered List:

1. First numbered item
2. Second numbered item
3. Third numbered item

Code Blocks

Here's a JavaScript code example:

```
function greetUser(name) {  
  console.log(`Hello, ${name}!`);  
  return `Welcome to MDToPDF converter!`;  
}  
  
// Usage  
const message = greetUser("Developer");
```

Tables

Feature	GitHub	Academic	Modern	Minimal
Colors	No	No	Yes	Limited
Typography	Sans-serif	Serif	Modern	Clean
Layout	Standard	Paper	Styled	Simple
Best for	Documentation	Papers	Presentations	Notes

Blockquotes

"The best way to predict the future is to create it."

This is a sample blockquote that demonstrates how different templates handle quoted text.

Images and Media

Note: Images can be included in PDFs when using local image files.

Conclusion

This document demonstrates various Markdown elements that will be styled differently across our built-in templates:

- **GitHub:** Clean and familiar
- **Academic:** Professional and formal
- **Modern:** Colorful and contemporary
- **Minimal:** Simple and focused
- **Newspaper:** Classic multi-column layout

Choose the template that best fits your document's purpose!
